CERTIFICATE OF MAILING 37 C.F.R. 1.8	
I hereby certify that this correspondence is being deposited with the U.S. Postal Service as First Class Mail in an envelope addressed to: Assistant Commissioner for Patents, Washington, D.C. 20231, on the date below:	
March 3, 2003	
Date	Robert A. Manware

Sir:

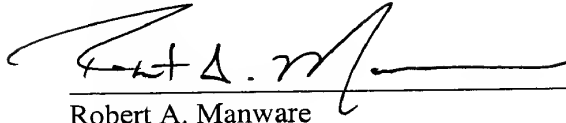

**DECLARATION UNDER 37 CFR § 1.131**

I, Robert A. Manware, hereby declare as follows:

1. My residence, post office address, and citizenship are set forth below, below my signature.
2. I am an attorney of record for the above-referenced application.
3. I have reviewed the file related to the above-referenced application which was filed on June 14, 2000.
4. I prepared a draft of the above-referenced patent application which was completed by March 9, 2000. The draft application was sent to the inventors for review on March 9, 2000, by Mike Fletcher, another attorney of record. A true and correct copy of the letter accompanying the draft application is attached hereto as Exhibit A.

5. The inventors reviewed the draft application and provided me with comments in late March or early April of 2000.
6. I revised the original draft application in accordance with these comments and sent a revised draft of the application to Micron, along with formal papers, on May 11, 2000. These formal papers included a Declaration, an Assignment, and a Power of Attorney. A true and correct copy of the letter accompanying the formal papers and revised application is attached hereto as Exhibit B.
7. Each of the Assignment and Declaration was executed by the inventors on June 5, 2000. True and correct copies of the executed Assignment and Declaration are attached hereto as Exhibit C. The Power of Attorney was executed on June 7, 2000 by Micron attorney, Michael Lynch. A true and correct copy of the executed Power of Attorney is attached hereto as Exhibit D.
8. On June 12, 2000, I received the executed documents, along with an accompanying letter dated June 9, 2000, on June 12, 2000. A true and correct copy of the letter is attached hereto as Exhibit E. I filed the completed application in the United States Patent and Trademark Office on June 14, 2000.
9. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further, that these statements are made with the knowledge that willful false statements, and the like, are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,

Robert A. Manware

Re: *U.S. Patent Application of William L. Hofer et al.*  
*Entitled: ROTATING GRIPPER WAFER FLIPPER*

Dear Mr. Hofer:

Enclosed for your and your co-inventors' collective review is the patent application we recently prepared for your invention. Please review the application, including all figures and claims, for accuracy and completeness. Please spend sufficient time reviewing the application so that you understand the content of the application, including each of the claims. The application should enable one skilled in the art to make and use the invention, and it should disclose the best mode of which you are aware for carrying out the invention.

While reviewing the application, and especially the claims, you should keep in mind any relevant prior art of which you are aware. It is important that the claims accurately define the invention and that they distinguish over the prior art. If any prior art comes to your attention now or during the pendency of the application, please send it to me.

If the application is inaccurate or incomplete, please mark your changes and corrections directly on the application itself and return it to me for revision, or you can call me at (281) 970-4545.

Very truly yours,

Michael G. Fletcher

## ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency and adequacy of which are hereby acknowledged, the undersigned, does hereby:

SELL, ASSIGN AND TRANSFER to Micron Technology, Inc. (the "Assignee"), a corporation of the State of Delaware, having a place of business at 8000 S. Federal Way, Boise, Idaho 83707-0006, the entire right, title and interest for the United States and all foreign countries in and to any and all improvements which are disclosed in the application for United States Letters Patent, which has been executed by the undersigned concurrently herewith and is entitled "ROTATING GRIPPER WAFER FLIPPER," such application and all divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such improvements; all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such improvements; and specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States;

AUTHORIZE AND REQUEST the issuing authority to issue any and all United States and foreign patents granted on such improvements to the Assignee;

WARRANT AND COVENANT that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned;

COVENANT, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this assignment, the undersigned will (1) execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such improvements; (2) execute all rightful oaths, declarations, assignments, powers of attorney and other papers; (3) communicate to the Assignee all facts known to the undersigned relating to such improvements and the history thereof; (4) cooperate with the Assignee in any interference, opposition, dispute, or litigation involving any of the applications or patents for such improvements; and (5) generally do everything possible which the Assignee shall consider desirable for vesting title to such improvements in the Assignee, and for securing, maintaining and enforcing proper patent protection for such improvements;

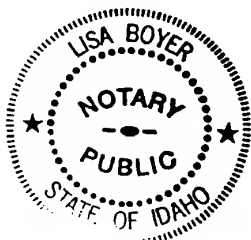

TO BE BINDING on the heirs, assigns, representatives and successors of the undersigned and extend to the successors, assigns and nominees of the Assignee.
